

January 23, 2016

It is with pleasure that I get the opportunity to write a letter of reference for Jammin' DJs. We have used them exclusively as our weekly DJs and for special events since opening our new location in 2010. They are always professional and respectful of our equipment and of our guests' requests and our large staff. They are friendly, punctual, and get the job done. I make the request for a DJ and then forget about it, knowing they will take care of business and please whatever kind of crowd or party we have going on. We have partnered with them on non- DJ related projects, also. They have helped us with our event planning contracts and lighting (including installation!) They have helped us promote huge events and have many times come through at the last minute for a game watch or holiday. I can't say enough nice things about this DJ company and recommend them highly for any event that needs a professional that will show everyone a great time!

Best,

Shelley Armand
