

***In re: Recommendation Letter for Jammin DJs***

To whom it may concern:

Jammin DJ's is a trusted entertainment source providing Trivia, DJs, productions lighting and a litany of other quality corporate and private entertainment experiences.

Three Dollar Café has had the pleasure of working with Jammin DJs for over four (4) years and they have never failed to perform efficiently and professionally. They have provided DJ Services, Trivia and Jammin Fued to several of our locations. They even provided DJ Services for our Corporate Holiday Party!

The CEO, John, maintains a commitment to excellence in both his willingness to communicate directly with us and his consistent personal involvement in each of our events. This commitment has obviously rubbed off on his employees, as is evident by their talent and professionalism.

We have received several compliments both internally and from our clients themselves on the quality of the product the Jammin DJs team has provided. Their involvement has both boosted profits and increased the enjoyment of our customers and the overall public perception of our brand. I am happy to provide my recommendation for such a quality and hardworking team for anyone in need of their valuable services.

With kindest regards,

**Three Dollar Café**
